Safety Timer 自动计时装置

It's an eco-friendly heater, preventing overheating and conserving energy.
减少过度加热时间，并可避免由此产生的故障，经济实惠！

Even if you forget to switch to cooling operation, this unit automatically switches to the cooling operation 3 minutes after the heating operation started to prevent overheating problems.

即使忘记调节至冷却开关，加热开始3分钟后，会自动转成冷却方式，可预防由于过热所引起的故障。
